Spike Flood Fixture for PAR38 Installation Instructions

CAUTION:

Use a qualified electrician for installation of this lighting fixture.

Before installing the fixture disconnect power by shutting off the circuit breaker or by removing the fuse at the fuse box. All electrical connections must be in accordance with local and National Electrical Code.

GENERAL INSTALLATION	
<p>1</p> 	<p>Remove the two Phillips screws which retain the bezel to the body. Remove the bezel and glass. Install a PAR38/30 lamp. Place the glass and bezel. Fix the screws and tighten them to the body.</p>
<p>2</p> 	<p>Select a suitable area to install the spike, taking care to avoid cables or pipes. Secure the spike into the ground, and the body to the spike. The incoming cable to the luminaire is to be terminated in a suitable junction box enclosure maintained any required IP rating. See electrical connections below.</p>
<p>3</p> 	<p>Angle and direct the luminaire to desired position.</p>
<p>4</p> 	<p>Restore power supply, switch on and test for satisfactory operation.</p>

ELECTRIC CONNECTION:

Connect as follows

LIVE	(L)	BROWN OR RED
NEUTRAL	(N)	BLUE OR BLACK
EARTH	(G)	YELLOW&GREEN

MAINTENANCE:

- This luminaire contains no serviceable parts. If you are in doubt, please contact your equipment supplier for further advice.
