ELECTRIC CONNECTION:
Connect as follows

LIVE	(L)	BROWN OR RED
NEUTRAL	(N)	BLUE OR BLACK
EARTH	(G)	YELLOW&GREEN

Step 1: Install the bulb

Remove the bezel and glass, install a LED GU10 lamp, fix the glass and bezel, and tighten them to the body

Step 2: Locate and wire the fixture

Select a suitable area to install the spike, taking care to avoid cables or pipes. Secure the spike into the ground, and the body to the spike. The incoming cable to the luminaire is to be terminated in a suitable junction box enclosure maintained any required IP rating. See electrical connections above.

Step 3: Direct the light

Angle and Direct the luminaire to the desired position. Verify that the Cover Trim of the luminaire is installed correctly to prevent water from entering the luminaire.

Step 4: Test

Restore power supply, switch on and test for satisfactory operation.

NOTE * : GU10 lamp NOT included. sold separately.
