

LED Emergency Fixture ZLSALIDA02

The LED Emergency Exit Sing Fixture from Zolu Lighting offers a super bright SMD LED in a white Injection-molded thermoplastic ABS housing and the cutout with the text SALIDA. This fixture is a UL-94V-0 flame rating and fire-retardant. For additional safety, this product provides up to 90 minutes of emergency lighting upon the loss of AC power due to its Nickel Cadmium Battery 1.5V 1000mAh, a test switch and charge indicator light and, overcharge and over-discharge protection. The LED Emergency Exit Sing Fixture provides virtually maintenance-free use of the fixture.

Features and Benefits

- UL Certificate
- 2 Year Warranty
- Injection-molded thermoplastic ABS housing
- UL-94V-0 flame rating, fire-retardant
- Wall, ceiling and end mounting
- Test switch and charge indicator light
- Super bright SMD LED
- Overcharge and Over-discharge protection

Applications

- Suitable for emergency and signaling lighting applications such as stairways, hallways and corridors
