

Design with high-intensity LED chips mounted on a flexible printed circuit board that allows for the addition of beautiful light in a home or a business. Well suited for lighting spaces that require a low-profile, low-heat light. Also, its wide 120° beam angle ensures it lights evenly and does not cast shadows on surfaces. The Zolu Lighting LED Strip Light is a great way to provide professional-grade, bright and comfortable accent lighting that will last for many years.
