

The A21 lamp is part of our Bulb LED lamps family and features a remarkable combination of comfortable omnidirectional light, high color rendering, and instant-on. Even better, the A21 lamp is incredibly efficient up to 117lm/W, and provides up to 80% energy savings compared to incandescent. With 25,000 average rated hours, this durable bulb offers long-term use and dependability, illuminate residential or commercial applications, provides general illumination, and can be used in ceiling fixtures, pendant light fixtures, and table lamps.

LED A21 Lamp

Features and benefits

- Zolu Lighting quality and reliability.
- Long life: 25,000 hours on average, based on a daily use of 3 hours.
- Energy efficient: up to 80% more efficient than incandescent alternatives.
- Excellent color consistency (CRI).
- Minimizes replacement and maintenance costs.
- Shatter resistant frosted polycarbonate bulb housing.
- Cooler operating temperature than incandescent or halogen light sources.
- Universal voltage.

Applications

- Recessed Lights
- Table and floor lamps
- Sconces and ceiling fixtures

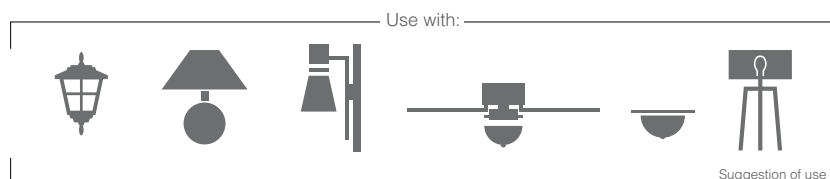

Technical specifications

Product code	Power	Light output	CCT	Dimmable
ZL100A21N25UNV50K	14W	1650lm	5000K	No dim

Main voltage	AC120-277V 50/60Hz
Efficiency	>117lm/W
Power factor	>0.9
THD	-20%
Base	E26
Bulb housing	Polycarbonate
Beam spread	270° full-beam spread
Life time	25,000hrs
Certificates	UL / RoHS
*Warranty	5 Year

* This product has a 5-year warranty, which will reduce to 1 year if installed in hermetic or sealed luminaires.

• NOTE: The life of the LED bulb will reduce if installed in hermetic luminaires without adequate heat dissipation or air circulation.
