Surface Fixture Cylinder & Square Installation

WARNING ⚡

1. Use a qualified electrician for installation of this lighting fixture.
2. Before installing the fixture disconnect power by shutting off the circuit breaker or by removing the fuse at the fuse box.
3. All electrical connections must be in accordance with local and National Electrical Code.
4. Switch ON only after complete installation and examination of the circuit.

CAUTION ⚠

Turn OFF power supply before starting any installation. Read instructions and check you have all the tools and accessories to complete the installation correctly.

• NOTE: To change the color temperature in the LED Modular Spot 3CCT, first, turn off the fixture before moving the switch. NOT doing this may cause damage to the controller and void the warranty. (5 years for this product aside)

Installation procedure
