LED
Path Light L-Shape 3CCT

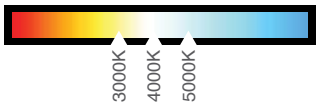

This contemporary L shape landscape light is ideal for path lighting or use in gardens. The housing is made of high-grade stainless steel with an etched acrylic lens to even light with a 6 to 10m^2 light range output and a sleek matte black finish. This is a high-quality modern fixture that is meant to light up your pathway, walkway, and garden. It includes a ABS ground stake for sturdy application into the ground. Illuminate the path to your door and add an enchanting touch to any garden with these easy-to-set-up garden lights.

Features and benefits

- Excellent heat dissipation
- L shape modern style and durable design
- Rubber bug plug prevents moisture/bugs from entering
- Stainless steel housing, IK06 protection
- IP65 rated suitable for outdoor and wet locations
- High temperature resistant frosted lens
- Strong ABS ground spike with brass insert

Applications

- Architectural, landscape, path
- Gardens and walkways

Installation sheet

3 YEAR WARRANTY

LED Path Light L Shape 3CCT Installation Instruction

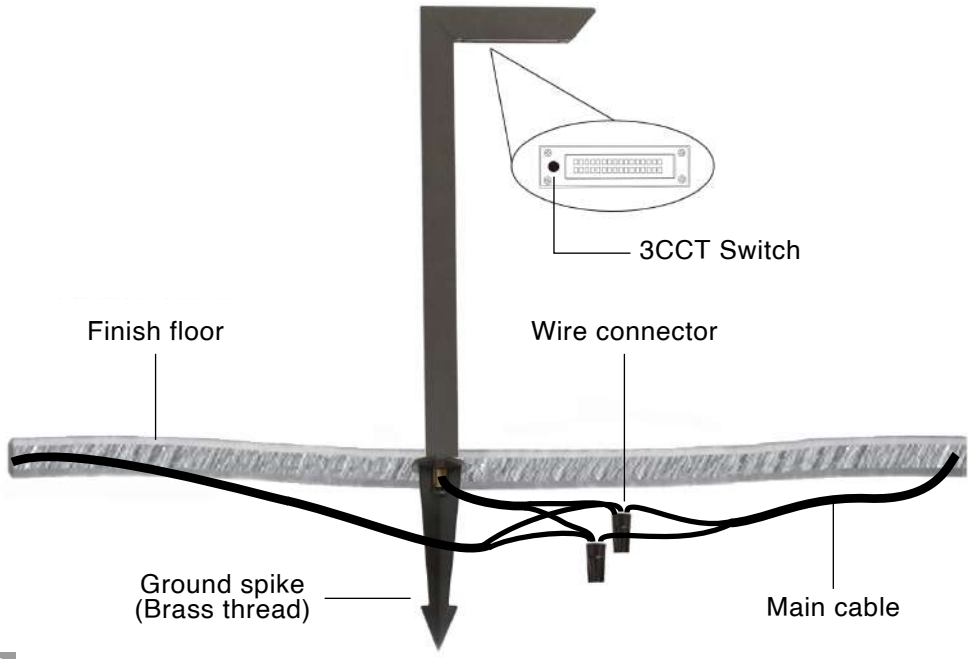

WARNING

1. Before installation, maintenance or lamp replacement, ensure that the mains supply to the luminaire is switched off and the circuit supply fuses are removed or the circuit breaker is turned off.
2. It is recommended that only a qualified electrical contractor carries out the installation of this luminaire and that the luminaire is installed in compliance with the current edition of the IEE Wiring Regulations.
3. The person carrying out the installation is to check and verify that the total load on the circuit, including that of this luminaire does not exceed the rating of the circuit cable, fuse or circuit breaker.
4. Where a luminaire incorporates discharge control gear (inductive load), the circuit capacity and ratings require careful sizing to avoid nuisance tripping of the protective device used in the installation.
5. Where applicable, careful consideration should be taken during installation to ensure that all fixings and/or suspensions are of a suitable size for the luminaire being installed.

- All luminaires are designed to operate at 12-24V-Volts DC. Do not operate outside these voltages.
- All luminaires are only suitable for applications within their rated Ingress Protection limits as stated.
- Fixture(s) must be installed in accordance with all local codes and ordinances.

Installation procedure

1

1. Attach ground spike to the fixture.
2. Attach fixture(s) wires to main cable with cable connector suitable for direct burrial.

Warning: Fixture(s) wires have to be run in close proximity to fixture(s) and not burried more than 3 inches.

3. Dig a small hole and insert fixture spike into ground and turn on power unit.

CAUTION

Turn off / un-plug and allow to cool before touch.

Lamp gets HOT quickly! Contact only switch/plug when turning on.

DO NOT touch hot lens, guard enclosure.

Keep lamp away from materials that may burn.

DO NOT touch the lamp at any time when on.

Oil from skin may damage the lamp. Use a soft cloth.

DO NOT operate the luminaire fitting with a missing or damage shield.

DO NOT install within 10 feet of a pool, spa or fountain.

We warrants its products to be free of defects in material and workmanship under normal use, when installed in accordance with installation instructions, specifications and accepted trade practices as follows: 3 years limited warranty from date of sale. This warranty excludes:

- Products not used in accordance with directions specified in installations instructions and subject to un-authorized repair.
- Damages caused by accident, alteration, misuse, abuse and exceeding the cost of product.
- Cost incurred in shipment, repair, replace, remove or install of product by buyer and others.
