

Designed to improve the comfort and luxury of any residential and commercial field, making the entire space more fascinating. The adjustable trim works perfectly with the matt silver reflector to create a spot like a wall washer effect with an 24° beam angle. The 5CCT switch mounted on the junction box, fits all your need for the environment's light color temperature. Ideal for new construction remodels or retrofit installations like residential and commercial areas.

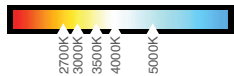

LED Luxury Spot Downlight

Features and benefits

- ZOLU Lighting quality and reliability
- High premium precision die casting aluminum strong heatsink.
- Integrated heat sink designed to conduct heat away directly from the LED Circuit Array, keeping the junction temperatures below specified maximums even when installed in insulated ceiling environments.
- Smooth flicker free deep dimming from 100% to 5%
- Suitable for damp locations
- No buzzin / flickering for eye comfort

Applications

- Rooms and kitchens, restaurants, cafes, hotel lobby
- Any residential and commercial areas

• Note: To change the color temperature, first, turn off the fixture before moving the switch. NOT doing this may cause damage to the controller and void the warranty.

Main voltage	AC120-277V 50/60Hz
Power factor	>0.9
Efficiency	up to 85lm/W
CRI	Ra>90
Dimmable	0-10V dimming
Beam angle	24°
Finish	White trim + Matte silver reflector
Housing	Die casting aluminum & powder coated finish
CCT	2700K / 3000K / 3500K / 4000K / 5000K selectable
Lifespan	50,000 Hrs
Certificates	ETL
Warranty	5 Year

LED Luxury Spot Downlight

WARNING

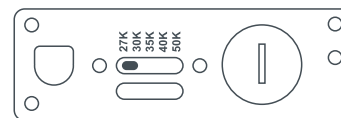

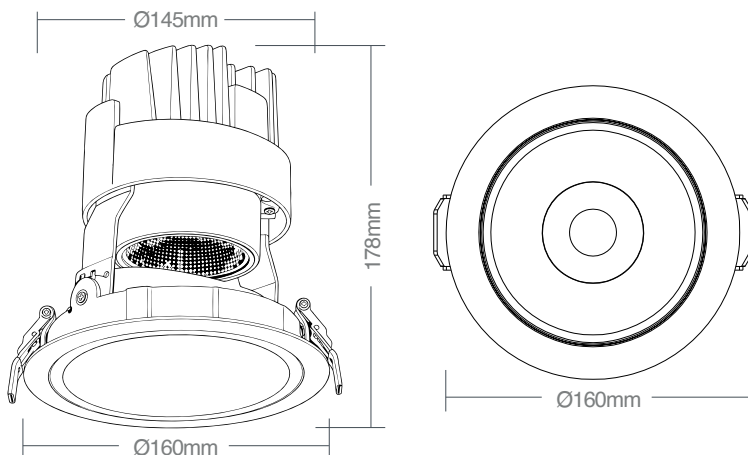

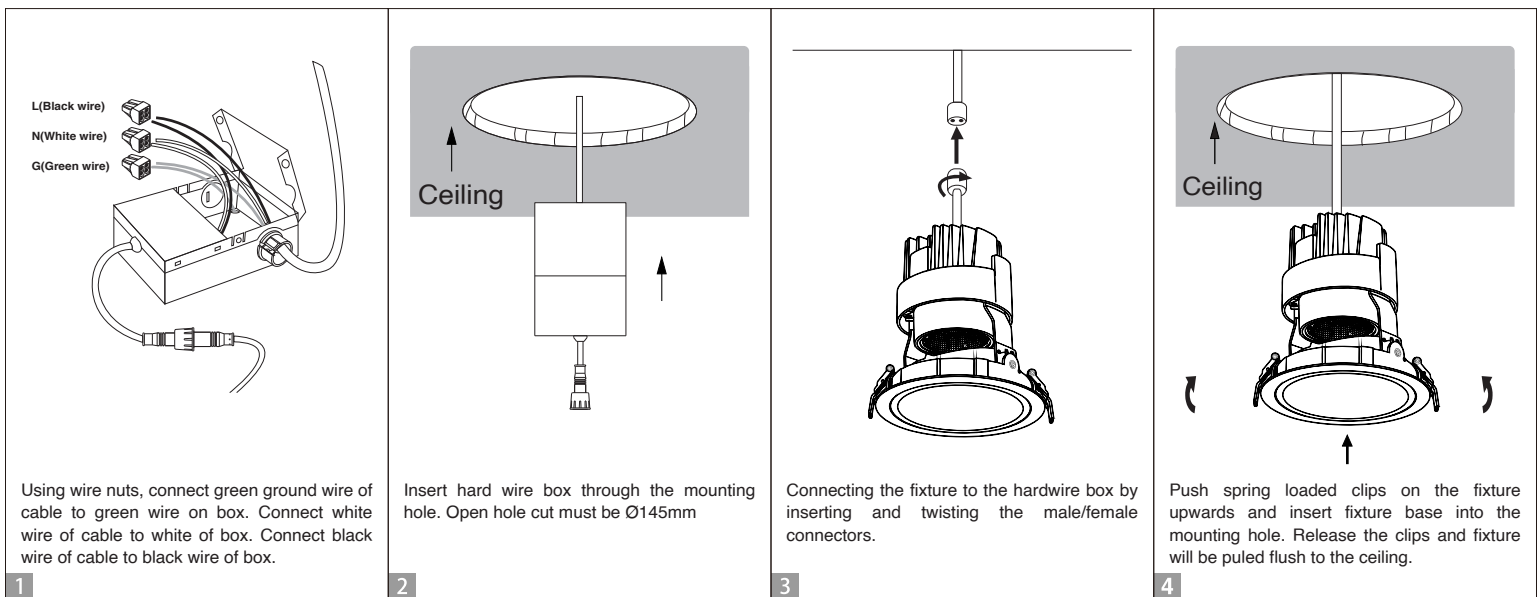

1. Read all product labels and directions.
2. Risk of fire or electric shock. LED LUXURY SPOT DOWNLIGHT installation requires knowledge of luminaries electrical system.
3. Use a qualified electrician for installation of this lighting fixture.
4. Before installing the fixture disconnect power by shutting off the circuit breaker or by removing the fuse at the fuse box.
5. All electrical connections must be in accordance with local and National Electrical Code.
6. Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation
7. Intended for mounting in an indoor application only. Suitable for damp locations.
8. Switch ON only after complete installation and examination of the circuit.

Turn OFF power supply before starting any installation or maintenance.

Read instructions and check you have all the tools and accessories to complete the installation correctly.

Recessed Mounted installation

5CCT means white color tunable
Via a Dip Switch mounted in Junction box
